The Destitution at Forest Hill.

(Concord Standard.) For some time the people at Forest Hill have been suffering with measels, and this has continued so long that some of them are in very destitute circumstances. In many places may be found a whole family in bed,-not one being able to wait upon the other. The sufferers are those who sought more lucrative employment and left their old homes to work in the factory, but before the wheels of the machinery began to turn they were seized with that disease to which every man stands heir. Their sufferings became pitiful, and the people responded to their cries for help with generous contributions. Mr. Odell has
